Letter To My Colleagues

Dear Colleague,

I hope this message finds you well.

I am writing to introduce myself and to offer my services in oral surgery. My name is Ajmal Zubair, a dedicated dentist with a special interest in oral surgery. I graduated from the University of Bristol in 2019 and have since substantially enhanced my expertise through extensive education and practical experience.

I hold a Postgraduate Certificate in Clinical Oral Surgery with Distinction from the University of Bristol (2021) and a Master of Science in Oral Surgery with Distinction from the University of Central Lancashire (2023). I am currently pursuing another Master of Science in Dental Implantology at The University of Salford.

Over the past several years, my professional journey has spanned primary care, hospital settings, private practices, and Tier 2 Oral Surgery environments. During this time, I have developed a profound passion for oral surgery, acquiring recognised competencies from HEIW, one of only a handful currently in Wales. My areas of expertise include bone augmentation, grafting, socket preservation techniques, and a wide range of oral surgical procedures.

In my current role as a Specialty Doctor in Oral and Maxillofacial Surgery at the Royal Albert Edward Infirmary in Wigan, I handle a variety of complex oral surgery procedures. This position involves managing facial trauma, performing complex tooth extractions, ectopic canine management, surgically managing oral pathologies, and providing emergency care for oral and maxillofacial conditions.

I understand that some oral surgery cases can be particularly challenging or require specialised care that might not be readily available in every practice. Therefore, I am reaching out to offer my services for any referrals you might have. Whether it involves complex extractions or other advanced surgical procedures, I am fully equipped to manage these cases with the utmost care and professionalism.

I place a high priority on patient comfort and care, especially for those experiencing dental anxiety. Understanding the challenges faced by anxious patients, I am adept at providing a calm and reassuring environment. For patients with heightened anxiety, I offer intravenous sedation, a safe and effective method to ensure a comfortable and stress-free treatment experience. IV sedation offers numerous benefits, including rapid onset, adjustable sedation levels, amnesic effects for a more pleasant experience, and the capability to perform multiple procedures in a single visit if necessary.

For your referred patients, I assure thorough assessments, transparent communication, and prompt scheduling of necessary procedures. Upon completing treatment, patients will be referred back to your practice for continuity of care, accompanied by detailed reports and any necessary post-operative radiographs.

Your trust in referring patients to me is highly valued, and I am committed to ensuring they receive the highest standard of care. Please feel free to contact me to discuss potential cases or to learn more about the services I offer. You can reach me via my email oralsurgeryreferrals@proton.me or through my website at <https://www.drajmalzubair.com/>. A list of the current services I provide and the associated fees are also available on my website.

Thank you for considering my services. I look forward to the opportunity to collaborate with you and contribute to the excellent care of your patients.

Kind regards,

A handwritten signature in black ink, appearing to be 'Ajmal Zubair', is located below the 'Kind regards,' text.
